1. BASIS OF PRESENTATION AND NEW ACCOUNTING PRONOUNCEMENTS

Basis of Presentation

The unaudited condensed consolidated financial statements and notes thereto of Rayonier Inc. and its subsidiaries ("Rayonier" or "the Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission. In the opinion of management, these financial statements and notes reflect all adjustments (including normal recurring adjustments) necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. These statements and notes should be read in conjunction with the financial statements and supplementary data included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, as filed with the Securities and Exchange Commission.

Subsequent Events

The Company evaluated events and transactions that occurred after the balance sheet date but before financial statements were issued, and no subsequent events were identified.

Reclassifications

Certain 2009 amounts have been reclassified to conform to current year presentation. See Note 2 – *Joint Venture Investment* for information regarding reclassifications for discontinued operations.

New or Recently Adopted Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued new guidance related to consolidation which replaced the quantitative-based risks and rewards calculation for determining which enterprise has a controlling interest in a variable interest entity with an approach primarily qualitative in nature. This Standard requires additional disclosures about an enterprise's involvement in variable interest entities and was effective January 1, 2010 for Rayonier. The Company's application of this guidance had no effect on the accompanying condensed consolidated financial statements. See Note $8 - Fair\ Value\ Measurements$ for additional information about the Company's variable interest entity.

Also in June 2009, the FASB issued new guidance related to the accounting for transfers of financial assets. The new standard eliminates the concept of a "qualifying special-purpose entity" ("QSPE") and associated guidance and creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale. Entities formerly classified as QSPEs are now evaluated for consolidation under the provisions related to the consolidation of controlling and non-controlling interests in an entity. Under the new guidance, the Company's investment in a special purpose entity does not require consolidation. See Note 8 – *Fair Value Measurements* for additional information about this entity.

2. JOINT VENTURE INVESTMENT

The Company owns an interest in Matariki Forestry Group ("Matariki"), a joint venture ("JV") that owns or leases approximately 0.3 million acres of New Zealand timberlands. In addition to the investment, Rayonier New Zealand Limited ("RNZ"), a wholly-owned subsidiary of Rayonier serves as the manager of the JV forests and operates a log trading business.

Rayonier's investment in the JV is accounted for using the equity method of accounting. Income from the JV is reported in the Timber segment as operating income since the Company manages the forests and its JV interest is an extension of the Company's operations. A portion of Rayonier's investment is recorded at historical cost which generates a difference between the book value of the Company's investment and its proportionate share of the JV's net assets. The difference represents the Company's unrecognized gain from RNZ's sale of timberlands to the JV in 2005. The deferred gain is recognized on a straight-line basis over the estimated number of years the JV expects to harvest the timberlands.

In the third quarter of 2008, Rayonier's Board of Directors approved a plan to offer to sell the Company's 40 percent interest in the JV as well as the operations of RNZ. As a result, the operating results of the JV and RNZ were segregated from continuing operations in the Condensed Consolidated Statements of Income and Comprehensive Income and reported as discontinued operations.

In the second quarter of 2009, as a result of distressed capital markets and the weak global economic conditions, Rayonier and its joint venture partners decided to discontinue the sale process and continue with on-going operations. Accordingly, the operating results of the joint venture are included in continuing operations in the Condensed Consolidated Statements of Income and Comprehensive Income for all periods presented.

In December of 2009, the JV signed an agreement to sell a 35 percent interest in the JV to a new investor for NZ\$167 million. Matariki issued new shares to the investor and used the proceeds entirely to pay down a portion of the outstanding NZ\$367 million debt. Consummation of this transaction occurred in February 2010. Upon closing, Rayonier's ownership interest in Matariki

declined from 40 percent to 26 percent. As a result of this transaction, Rayonier recognized a gain of \$11.5 million, net of \$0.9 million in tax, or \$0.15 per diluted share.

(Dollars in thousands unless otherwise stated)

3. EARNINGS PER COMMON SHARE

The following table provides details of the calculation of basic and diluted earnings per common share:

Three Months Ended

	March 31,					
	2010 2009					
Net income	\$ 56,953	\$ 25,921				
Shares used for determining basic earnings per common						
share	79,741,538	78,806,973				
Dilutive effect of:						
Stock options	390,915	221,962				
Performance and restricted shares	576,944	243,542				
Shares used for determining diluted earnings per common						
share	80,709,397	79,272,477				
Basic earnings per common share:	\$ 0.71	\$ 0.33				
Diluted earnings per common share:	\$ 0.71	\$ 0.33				

4. INCOME TAXES

Rayonier is a real estate investment trust ("REIT"). In general, only Rayonier TRS Holdings, Inc. ("TRS"), the Company's wholly-owned taxable subsidiary whose businesses include the Company's non-REIT qualified activities, is subject to corporate income taxes. However, the Company is subject to U.S. federal corporate income tax on built-in gains (the excess of fair market value over tax basis for property held by the Company upon REIT election at January 1, 2004) on taxable sales of such property during the first 10 years following the election to be taxed as a REIT. Accordingly, the provision for corporate income taxes relates principally to current and deferred taxes on certain property sales and on TRS income.

The Company's effective tax rate is below the 35 percent U.S. statutory tax rate primarily due to tax benefits associated with being a REIT and like-kind exchange ("LKE") transactions. Effective tax rates before discrete items were 16.3 percent and 19.4 percent for the three months ending March 31, 2010 and 2009, respectively. The lower rate in 2010 was due to proportionately higher earnings from the REIT.

Including discrete items, the effective tax rate for the quarter was 11.8 percent compared to 15.4 percent in 2009.

5. RESTRICTED DEPOSITS

In order to qualify for LKE treatment, the proceeds from real estate sales must be deposited with a third party intermediary. These proceeds are accounted for as restricted cash until a suitable replacement property is acquired. In the event that LKE purchases are not completed, the proceeds are returned to the Company after 180 days and reclassified as available cash. As of March 31, 2010 and December 31, 2009, the Company had \$9.9 million and \$0.1 million, respectively, of proceeds from real estate sales classified as restricted cash in Other Assets, which were deposited with an LKE intermediary.

(Dollars in thousands unless otherwise stated)

6. SHAREHOLDERS' EQUITY

An analysis of shareholders' equity for the three months ended March 31, 2010 and the year ended December 31, 2009 is shown below (share amounts not in thousands):

7. SEGMENT INFORMATION

Rayonier operates in four reportable business segments: Timber, Real Estate, Performance Fibers, and Wood Products. Timber sales include all activities that relate to the harvesting of timber. Real Estate sales include all property sales, including those designated for higher and better use ("HBU"). The assets of the Real Estate segment include HBU property held by the Company's real estate subsidiary, TerraPointe LLC, and parcels under contract previously in the Timber segment. Allocations of depletion expense and non-cash costs of real estate sold are recorded when the Real Estate segment sells an asset from the Timber segment. The Performance Fibers segment includes two major product lines, cellulose specialties and absorbent materials. The Wood Products segment is comprised of lumber operations. The Company's remaining operations include harvesting and selling timber acquired from third parties (log trading). These operations are reported in "Other Operations." Sales between operating segments are made based on fair market value, and intercompany sales, purchases and profits (losses) are eliminated in consolidation. The Company evaluates financial performance based on the operating income of the segments.

Operating income (loss) as presented in the Condensed Consolidated Statements of Income and Comprehensive Income is equal to segment income (loss). Certain income (loss) items in the Condensed Consolidated Statements of Income and Comprehensive Income are not allocated to segments. These items, which include gains (losses) from certain asset dispositions, interest income (expense), miscellaneous income (expense) and income tax (expense) benefit, are not considered by Company management to be part of segment operations.

(Dollars in thousands unless otherwise stated)

Total assets, sales, operating income (loss) and depreciation, depletion and amortization by segment including Corporate were as follows:

	March 31, 2010	December 31, 2009

8. FAIR VALUE MEASUREMENTS

The following table presents the carrying amount and estimated fair values of financial instruments held by the Company at March 31, 2010 and December 31, 2009, using market information and what the Company believes to be appropriate valuation methodologies under generally accepted accounting principles:

	March 31,				Decem	ber 31,	
	2010 2			2010			09
	Carrying			С	arrying		
Asset (liability)	Amount		Fair Value		Amount		Fair Value
Cash and cash equivalents	\$	\$ 152,970		152,970	\$	74,964	\$ 74,964
Short-term debt	-			-		(4,650)	(4,650)
Long-term debt		(762,028)		(877,608)	(694,999)	(790,763)

Rayonier uses the following methods and assumptions in estimating the fair value of its financial instruments:

Cash and cash equivalents—The carrying amount is equal to fair market value.

Debt—The Company's short-term bank loans and floating rate debt approximate fair value. The fair value of fixed rate long-term debt is based upon quoted market prices for debt with similar terms and maturities.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	Carry	ying Value at				
Asset	March 31, 2010 Level 2					
Investment in special-purpose entity	\$ 2,733 \$ 2,733					
	Carrying Value at					
Asset	Decen	nber 31, 2009		Level 2		
Investment in special-purpose entity	\$	2,733	\$	2,733		

RAYONIER INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued) (Unaudited)

(Dollars in thousands unless otherwise stated)

Variable Interest Entity

Rayonier holds a variable interest in a bankruptcy-remote, limited liability subsidiary ("special-purpose entity") which was created in 2004 when Rayonier monetized a \$25.0 million installment note and letter of credit received in connection with a timberland sale. The Company contributed the note and a letter of credit to the special-purpose entity and using the installment note and letter of credit as collateral, the special-purpose entity issued \$22.5 million of 15-year Senior Secured Notes and remitted cash of \$22.5 million to the Company. There are no restrictions that relate to the transferred financial assets. Rayonier maintains a \$2.5 million interest in the entity and receives immaterial cash payments equal to the excess of interest received on the installment note over the interest paid on the Senior Secured Notes. The Company's interest is recorded at fair value and is included in "Other Assets" in the Condensed Consolidated Balance Sheets. In addition, the Company calculated and recorded a de minimus guarantee liability to reflect its obligation of up to \$2.5 million under a makewhole agreement pursuant to which it guaranteed certain obligations of the entity. This guarantee obligation is also collateralized by the letter of credit. The Company's interest in the entity, together with the make-whole agreement, represent the maximum exposure to loss as a result of the Company's involvement with the special purpose entity. Upon maturity of the Senior Secured Notes in 2019 and termination of the special purpose entity, Rayonier will receive the remaining \$2.5 million of cash. The Company determined, based upon an analysis under the variable interest entity guidance, that it does not have the power to direct activities that most significantly impact the entity's economic success. Therefore, Rayonier is not the primary beneficiary and is not required to consolidate the entity.

9. GUARANTEES

The Company provides financial guarantees as required by creditors, insurance programs, and state and foreign governmental agencies. As of March 31, 2010, the following financial guarantees were outstanding:

	Maxir Poter			Carrying mount of	
	P	ayment	I	Liability	
Standby letters of credit (1)	\$	43,893	\$	38,110	
Guarantees (2)		3,756		53	
Surety bonds (3)		11,658		1,871	
Total	\$	59,307	\$	40,034	

- (1) Approximately \$39 million of the standby letters of credit serve as credit support for industrial revenue bonds. The remaining letters of credit support obligations under various insurance related agreements, primarily workers' compensation and pollution liability policy requirements. These letters of credit expire at various dates during 2010 and will be renewed as required.
- (2) In conjunction with RNZ's sale of timberlands to the New Zealand JV in October 2005, the Company guaranteed five years of Crown Forest license obligations. The JV is the primary obligor and has posted a bank performance bond with the New Zealand government. If the JV fails to pay the obligation, the New Zealand government will demand payment from the bank that posted the bond. If the bank defaults on the bond, the Company would then have to perform. As of March 31, 2010, one annual payment of \$1.2 million remains. This guarantee expires in 2010.
 - In conjunction with a timberland sale and note monetization in the first quarter of 2004, the Company issued a make-whole agreement pursuant to which it guaranteed \$2.5 million of obligations of a special-purpose entity that was established to complete the monetization. At March 31, 2010 and December 31, 2009, the Company has recorded a de minimus liability to reflect the fair market value of its obligation to perform under the make-whole agreement.
- (3) Rayonier issued surety bonds primarily to secure timber in the State of Washington and to provide collateral for the Company's workers' compensation self-insurance program in Washington and Georgia. These surety bonds expire at various dates during 2010, 2011 and 2014, and are expected to be renewed as required.

(Dollars in thousands unless otherwise stated)

10. LIABILITIES FOR DISPOSITIONS AND DISCONTINUED OPERATIONS

An analysis of activity in the liabilities for dispositions and discontinued operations for the three months ended March 31, 2010 and the year ended December 31, 2009, is as follows:

	Mai	rch 31, 2010	Dece	ember 31, 2009
Balance, January 1	\$	98,591	\$	104,575
Expenditures charged to liabilities		(2,029)		(8,095)
Increase (reduction) to liabilities		31		2,111
Balance, end of period		96,593		98,591
Less: Current portion		(10,910)		(10,648)
Non-current portion	\$	85,683	\$	87,943

Subject to the factors described in the next paragraph of this footnote, the Company believes established liabilities are sufficient for costs expected to be incurred over the next 20 years with respect to its dispositions and discontinued operations. Remedial actions for these sites vary, but can include, among other remedies, on-site (and in certain cases off-site) removal or treatment of contaminated soils and sediments, recovery and treatment/remediation of groundwater, and source remediation and/or control.

In addition, the Company is exposed to the risk of reasonably possible additional losses in excess of the established liabilities. As of March 31, 2010, this amount could range up to \$36 million and arises from uncertainty over the availability or effectiveness of certain remediation technologies, additional or different contamination that may be discovered, development of new or improved environmental remediation technologies, changes in applicable law and the exercise of discretion in interpretation of applicable law and regulations by governmental agencies.

For additional information on the Company's environmental liabilities refer to Note 16 – *Liabilities for Dispositions and Discontinued Operations* in the 2009 Annual Report on Form 10-K.

11. CONTINGENCIES

Rayonier is engaged in various legal actions, including certain environmental proceedings. The Company has been named as a defendant in various other lawsuits and claims arising in the normal course of business. While the Company has procured reasonable and customary insurance covering risks normally occurring in connection with its businesses, it has in certain cases retained some risk through the operation of self-insurance, primarily in the areas of workers' compensation, property insurance and general liability. These other lawsuits and claims, either individually or in the aggregate, are not expected to have a material effect on the Company's financial position, results of operations, or cash flow.

There have been no material changes in the status of the other specific matters referenced in Note 16 – *Liabilities for Dispositions and Discontinued Operations* in the 2009 Annual Report on Form 10-K.

12. EMPLOYEE BENEFIT PLANS

The Company has four qualified non-contributory defined benefit pension plans covering the majority of its employees and an unfunded plan that provides benefits in excess of amounts allowable under current tax law in the qualified plans. Three of the qualified plans, as well as the unfunded plan, are closed to new participants. Employee benefit plan liabilities are calculated using actuarial estimates and management assumptions. These estimates are based on historical information, along with certain assumptions about future events. Changes in assumptions, as well as changes in actual experience, could cause the estimates to change.

(Dollars in thousands unless otherwise stated)

The net periodic benefit costs of the Company's pension and postretirement plans (medical and life insurance) are shown in the following table:

		Pen	sion		Postretirement					
	Three Months Ended					Three Months Ended				
		Marc	h 31,		ch 31,					
	2010 2009				- 2	2010	2009			
Components of Net Periodic Benefit Cost					<u> </u>					
Service cost	\$	1,646	\$	1,842	\$	146	\$	90		
Interest cost		4,579		4,349		257		301		
Expected return on plan assets		(5,410)		(5,291)		-		-		
Amortization of prior service cost		311		354		22		22		
Amortization of plan amendment		-		-		(2,392)		(2,392)		
Amortization of losses		2,098		1,349		1,478		1,558		
Net periodic benefit cost	\$	3,224	\$	2,603	\$	(489)	\$	(421)		

The Company made no discretionary contributions to the pension plans during the three months ended March 31, 2010. The Company's 2010 full year discretionary pension contributions may be in the \$40 million to \$50 million range in order to improve funded status.

13. DEBT

In March 2010, TRS borrowed \$75 million under a five-year term loan agreement with a group of banks at LIBOR plus 275 basis points. There were no other significant changes to the Company's outstanding debt as reported in Note 13 – *Debt* of the Company's 2009 Annual Report on Form 10-K.

. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Accumulated Other Comprehensive Income (Loss) was comprised of the following:

	Marc	ch 31, 2010	December 31, 2009				
Foreign currency translation adjustments	\$	25,554	\$	26,769			
Joint venture cash flow hedges		(2,096)		(2,305)			
Unrecognized components of employee benefit plans, net of tax		(100,102)		(104,206)			
Total	\$	(76,644)	\$	(79,742)			

15. CONSOLIDATING FINANCIAL STATEMENTS

In October 2007, TRS issued \$300 million of 3.75% Senior Exchangeable Notes due 2012, and in August 2009 TRS issued \$172.5 million of 4.50% Senior Exchangeable Notes due 2015. The notes for both transactions are guaranteed by Rayonier and are non-callable. In connection with these exchangeable notes, the Company provides the following condensed consolidating financial information in accordance with SEC Regulation S-X Rule 3-10, *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements, except for the use of the equity method of accounting to reflect ownership interests in wholly-owned subsidiaries which are eliminated upon consolidation and the allocation of certain expenses of Rayonier incurred for the benefit of its subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

When we refer to "we," "us," "our," "the Company," or "Rayonier," we mean Rayonier Inc. and its consolidated subsidiaries. References herein to "Notes to Financial Statements" refer to the Notes to the Condensed Consolidated Financial Statements of Rayonier Inc. included in Item 1 of this Report.

The Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to provide a reader of our financial statements with a narrative from the perspective of management on our financial condition, results of operations, liquidity, and certain other factors which may affect future results. Our MD&A should be read in conjunction with the 2009 Annual Report on Form 10-K.

Forward - Looking Statements

Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, provide a "safe harbor" for forward-looking statements to encourage companies to provide prospective information about their companies. Certain statements in this document regarding anticipated financial outcomes including earnings guidance, if any, business and market conditions, outlook and other similar statements relating to Rayonier's future financial and operational performance, are "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. These forward-looking statements are identified by the use of words such as "may," "will," "should," "expect," "estimate," "believe," "anticipate" and other similar language.

Forward looking statements are subject to future events, risks and uncertainties (many of which are beyond our control or are currently unknown to us) as well as potentially inaccurate estimates, assumptions and judgments by us that could cause actual results to differ materially from results contemplated by our forward-looking statements. Some of these events, risks and uncertainties are set forth in Item $1A - Risk \ Factors$ in our 2009 Annual Report on Form 10-K. Forward-looking statements are not guarantees of future performance and undue reliance should not be placed on these statements.

Critical Accounting Policies and Use of Estimates

The preparation of our consolidated financial statements requires us to make estimates, assumptions and judgments that affect our assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. We base these estimates and assumptions on historical data and trends, current fact patterns, expectations and other sources of information we believe are reasonable. Actual results may differ from these estimates under different conditions. For a full description of our critical accounting policies, see Item 7 – *Management's Discussion and Analysis of Financial Condition and Results of Operations* in the 2009 Annual Report on Form 10-K.

Segments

We are a leading international forest products company primarily engaged in timberland management, the sale and entitlement of real estate, and the production and sale of high value specialty cellulose fibers and fluff pulp. We operate in four reportable business segments: Timber, Real Estate, Performance Fibers, and Wood Products. The Timber sales include all activities which relate to the harvesting of timber. Real Estate sales include all property sales, including those designated for higher and better use ("HBU"). The assets of the Real Estate segment include HBU property held by the Company's real estate subsidiary, TerraPointe LLC, and parcels under contract previously in the Timber segment. The Performance Fibers segment includes two major product lines, cellulose specialties and absorbent materials. The Wood Products segment is comprised of lumber operations. Our remaining operations include harvesting and selling timber acquired from third parties (log trading). These operations are combined and reported in "Other Operations." Sales between operating segments are made based on fair market value, and intercompany sales, purchases and profits or losses are eliminated in consolidation.

We evaluate financial performance based on the operating income of the segments. Operating income, as presented in the Condensed Consolidated Statements of Income and Comprehensive Income, is equal to segment income (loss). Certain income (loss) items in the Condensed Consolidated Statements of Income and Comprehensive Income are not allocated to segments. These items, which include gains (losses) from certain asset dispositions, interest income (expense), miscellaneous income (expense) and income tax (expense) benefit, are not considered by Company management to be part of segment operations.

Results of Operations, Three Months Ended March 31, 2010 Compared to Three Months Ended March 31, 2009.

Operating Income (Loss) (in millions)	Changes Attributable to:									
	2009			Price Volume/Mix			Cost	/Other	2	010
Three months ended March 31,										,
Eastern	\$	3.0	\$	2.3	\$	(1.1)	\$	4.1	\$	8.3
Western		(3.9)		2.4		0.2		1.7		0.4
New Zealand/Other		(1.4)						0.9		(0.5)
Total Operating Income (Loss)	\$	(2.3)	\$	4.7	\$	(0.9)	\$	6.7	\$	8.2

In the Eastern region, sales increased from the prior year period due to higher stumpage prices and a change in sales mix from stumpage to higher-priced delivered logs. Average prices improved 24 percent from first quarter 2009 due to strong pulpwood demand and restricted timber supply caused by wet logging conditions. Pine volumes increased slightly above prior year, while hardwood volumes declined 64 percent primarily due to weather-related supply constraints on hardwood.

Operating income in the Eastern region improved from the prior year period reflecting increased prices as well as lower depletion and log production costs due to geographic sales mix.

In the Western region, sales and operating income improved from first quarter 2009 as sawlog prices and volumes rose 17 percent and 41 percent, respectively, due to weather-related supply shortages and increased demand, primarily from the export market. Lower logging and transportation costs also contributed to the improvement in operating income.

In February 2010, our New Zealand joint venture, Matariki Forestry Group ("Matariki"), sold a 35 percent interest in the joint venture to a new investor for NZ\$167 million. Matariki issued new shares to the investor and used the proceeds entirely to pay down a portion of the outstanding NZ\$367 million debt. The transaction reduced our ownership interest in Matariki from 40 percent to 26 percent. Rayonier will continue to manage the joint venture.

REAL ESTATE

Sales (in millions)	Changes Attributable to:					
	2009	Price	Volum	e/Mix	2010	
Three months ended March 31,						
Development	\$ 0.2	\$ (3.8)	\$	4.7	\$ 1.1	
Rural	3.8	(2.2)		1.8	3.4	
Non-Strategic Timberlands	22.6			5.9	28.5	
Total Sales	\$ 26.6	\$ (6.0)	\$	12.4	\$ 33.0	

Operating Income (in millions)		Cha	inges Atti	0:					
	 2009 Price		rice	Volume/Mix		Cost/Other		2	010
Three months ended March 31,									
Total Operating Income	\$ 14.4	\$	(6.0)	\$	9.6	\$	(0.6)	\$	17.4

Sales of \$33 million were \$6 million above first quarter 2009, while operating income of \$17 million improved \$3 million. Sales and operating income increased from the prior year period as higher volumes resulting from solid demand more than offset declines in rural and development per acre prices primarily due to geographic sales mix.

PERFORMANCE FIBERS

Sales (in millions)				Changes Att	ributable to	o:		
	200	9	Pr	ice	Volum	ne/Mix	2	2010
Three months ended March 31,								
Cellulose specialties	\$	156.7	\$	(3.3)	\$	3.9	\$	157.3
Absorbent materials		46.9		(2.5)		(1.9)		42.5
Total Sales	\$	203.6	\$	(5.8)	\$	2.0	\$	199.8

Cellulose specialties sales increased slightly from the prior year period as higher volumes were mostly offset by lower prices. Volumes increased three percent from first quarter 2009 due to strong demand. However, prices decreased two percent reflecting the third quarter 2009 removal of a cost-based surcharge offset in part by an annual price increase.

Absorbent materials sales decreased from first quarter 2009 as prices and volumes declined by six percent and five percent, respectively, primarily due to weaker markets. However, prices have increased from fourth quarter 2009 as market conditions have improved.

Operating Income (in millions)		Changes Attributable to:			
	2009	Price	Volume/Mix	Costs/Other	2010
Three months ended March 31,					
Total Operating Income	\$ 40.8	\$ (5.8)	\$ 1.0	\$ 8.9	\$ 44.9

Operating income increased primarily due to lower chemical costs offset in part by higher wood costs caused by wet logging conditions.

WOOD PRODUCTS

Sales (in millions)	Changes Attributable to:				
	2009	Price	Volume	2010	
Three months ended March 31,					
Total Sales	\$ 11.8	\$ 3.6	\$ 0.5	\$ 15.9

Operating Loss (in millions)	2009	Ch Price	anges Attributable to	o: Costs	2010
Operating Loss (in millions) Three months ended March 31,	2009		<u> </u>		2010

Sales and operating results improved from the prior year period primarily due to a 29 percent increase in prices resulting from supply constraints caused by wet conditions.

OTHER OPERATIONS

Sales of \$17 million for the quarter were \$11 million above the prior year period while operating income of \$1 million was consistent with the prior year. Operating income in first quarter 2009 was primarily comprised of foreign exchange gains.

Corporate and Other Expenses

Excluding the gain on the JV interest sale, corporate and other expenses were consistent with the prior year period as higher incentive compensation and employment costs were offset by a favorable insurance settlement.

Interest Expense and Other Income, Net

Interest and other expenses for the quarter were comparable to the prior year period as higher average debt balances were offset by lower average interest rates.

Income Tax Expense

The first quarter effective tax rate before discrete items was 16.3 percent in 2010 versus 19.4 percent in 2009. The lower rate in 2010 was due to proportionately higher earnings from the REIT. Including discrete items, the first quarter 2010 effective tax rate was 11.8 percent compared to 15.4 percent in the prior year.

Outlook

We are optimistic that the economic recovery is broadening and that the housing market is gradually improving. We see tremendous value in our timberlands based on improving near-term markets and strong long-term fundamentals. Our timberland portfolio will be further enhanced by the value we capture through rural and conservation sales. We anticipate continued strong demand for our cellulose specialties and absorbent materials products, contributing to another record year for Performance Fibers.

As a result, we are increasing our 2010 guidance. We now expect earnings of \$1.80 to \$2.00 per share for 2010, excluding the gain on the New Zealand joint venture transaction, and CAD of \$330 million to \$350 million, reflecting the AFMC refund net of higher capital expenditures and pension contributions.

Liquidity and Capital Resources

Historically, our operations have generally produced consistent cash flows and required limited capital resources. Short-term borrowings have helped fund cyclicality and seasonality in working capital needs and long-term debt has been used to fund major acquisitions.

\$75 million Five-Year Term Loan Agreement

In March 2010, TRS borrowed \$75 million under a five-year term loan agreement with a group of banks at LIBOR plus 275 basis points. We intend to use these funds for general corporate purposes.

Summary of Liquidity and Financing Commitments (in millions of dollars)

	As of March 31, 2010		As of December 31 2009	
Cash and cash equivalents ¹	\$	153	\$	75
Total debt		762		700
Shareholders' equity		1,175		1,146
Total capitalization (total debt plus equity)		1,937		1,846
Debt to capital ratio		39%		38%

Cash and cash equivalents consisted primarily of time deposits with original maturities of 90 days or less.

Cash Provided by Operating Activities (in millions of dollars)

	2010	2009	Increase
Three months ended March 31,	\$ 91	\$ 65	\$ 26

Cash provided by operating activities increased \$26 million primarily due to improved operating results.

Cash Used for Investing Activities (in millions of dollars)

	2010	2009	Increase
Three months ended March 31,	\$ 38	\$ 29	\$ 9

Cash used for investing activities increased \$9 million primarily due to an increase in restricted cash and capital expenditures.

Cash Provided by (Used for) Financing Activities (in millions of dollars)

	2010	2009	Increase
Three months ended March 31,	\$ 24	\$ (41)	\$ 65

Cash provided by financing activities increased \$65 million due to higher net borrowings of \$60 million in 2010 versus no net borrowings in 2009.

Expected 2010 Expenditures

Income tax payments totaled \$3 million during the first quarter of 2010 compared to payments of \$1 million in the same period 2009. Cash payments for income taxes during 2010 are anticipated to be between \$3 million and \$6 million. A cash refund of \$189 million related to the alternative fuel mixture credit was received in April 2010. The credit was effective for alternative fuel used in operations through December 31, 2009. See Note 3 – *Alternative Fuel Mixture Credit* ("AFMC") in the 2009 Annual Report on Form 10-K for additional information. We made no discretionary pension contributions in the first quarter of 2010; however, discretionary pension contributions may be in the \$40 million to \$50 million range later in the year, funded primarily by proceeds from the AFMC. Capital expenditures in 2010 are forecasted to be between \$140 million and \$145 million compared to \$92 million in 2009. Environmental expenditures related to dispositions and discontinued operations were \$2 million for the first three months ended March 31, 2010 versus \$2 million in the same period 2009. Full year 2010 expenditures of approximately \$10 million are anticipated.

Performance and Liquidity Indicators

The discussion below is presented to enhance the reader's understanding of our operating performance, liquidity, ability to generate cash and satisfy rating agency and creditor requirements. This information includes two measures of financial results: Earnings before Interest, Taxes, Depreciation, Depletion and Amortization ("EBITDA") and Adjusted Cash Available for Distribution ("Adjusted CAD"). These measures are not defined by Generally Accepted Accounting Principles ("GAAP") and the discussion of EBITDA and Adjusted CAD is not intended to conflict with or change any of the GAAP disclosures described above. Management considers these measures to be important to estimate the enterprise and shareholder values of the Company as a whole and of its core segments, and for allocating capital resources. In addition, analysts, investors and creditors use these measures when analyzing our operating performance, financial condition and cash generating ability. Management uses EBITDA

as a performance measure and Adjusted CAD as a liquidity measure. EBITDA is defined by the Securities and Exchange Commission. Adjusted CAD as defined, however, may not be comparable to similarly titled measures reported by other companies.

We reconcile EBITDA to Net Income for the consolidated Company and Operating Income for the Segments, as those are the nearest GAAP measures for each. Below is a reconciliation of Net Income to EBITDA for the respective periods (in millions of dollars):

	Three Months Ended			ed
	March 31,			
	2010		2	009
Net Income	\$ 57.0		\$	25.9
Income tax expense	7.6			4.7
Interest, net	12.3			12.6
Depreciation, depletion and amortization	 43.3			38.5
EBITDA	\$ 120.2		\$	81.7

EBITDA by segment is a critical valuation measure used by our Chief Operating Decision Maker, existing shareholders and potential shareholders to measure how the Company is performing relative to the assets under management. EBITDA by segment for the respective periods was as follows (millions of dollars):

	Three Months Ended March 31,			d
	 2010		20	009
EBITDA by Segment				
Timber	\$ 25.0		\$	15.1
Real Estate	26.9			19.8
Performance Fibers	60.7			55.1
Wood Products	1.1			(2.4)
Other Operations	0.6			0.7
Corporate and other ¹	5.9			(6.6)
Total	\$ 120.2	:	\$	81.7

²⁰¹⁰ results include a gain of \$12.4 million from the sale of a portion of the Company's interest in the New Zealand joint venture. See Note 2 - *Joint Venture Investment* for additional information.

For the three months ended March 31, 2010, EBITDA was \$39 million above the prior year period primarily due to higher operating results and a \$12 million gain from the sale of a portion of Rayonier's interest in its New Zealand joint venture.

The following tables reconcile Operating Income by segment to EBITDA by segment (millions of dollars):

		Real	Performance	Wood	Other	Corporate	
	Timber	Estate	Fibers	Products	Operations	and other	Total
Three Months Ended March 31, 2010							
Operating income	\$ 8.2	\$ 17.4	\$ 44.9	\$ -	\$ 0.6	\$ 5.8	\$ 76.9
Add: Depreciation, depletion and amortization	16.8	9.5	15.8	1.1	-	0.1	43.3
EBITDA	\$ 25.0	\$ 26.9	\$ 60.7	\$ 1.1	\$ 0.6	\$ 5.9	\$120.2
Three Months Ended March 31, 2009							
Operating income (loss)	\$ (2.3)	\$ 14.4	\$ 40.8	\$ (3.6)	\$ 0.7	\$ (6.8)	\$ 43.2
Add: Depreciation, depletion and amortization	17.4	5.4	14.3	1.2	-	0.2	38.5
EBITDA	\$ 15.1	\$ 19.8	\$ 55.1	\$ (2.4)	\$ 0.7	\$ (6.6)	\$ 81.7

Adjusted CAD is a non-GAAP measure of cash generated during a period which is available for dividend distribution, repurchasing common shares, debt reduction and for strategic acquisitions net of associated financing (e.g. realizing LKE tax benefits). We define Cash Available for Distribution ("CAD") as Cash Provided by Operating Activities adjusted for capital spending, the tax benefits associated with certain strategic acquisitions, the change in committed cash, and other items which include cash provided by discontinued operations, proceeds from matured energy forward contracts, excess tax benefits on stock based compensation and the change in capital expenditures purchased on account. Committed cash represents outstanding checks that have been drawn on our zero balance bank accounts but have not been paid. In compliance with Securities and Exchange Commission requirements for non-GAAP measures, we reduce CAD by mandatory debt repayments which results in the measure entitled "Adjusted CAD."

Below is a reconciliation of Cash Provided by Operating Activities to Adjusted CAD (in millions of dollars):

	Th	Three Months Ended March 31,			
		2010		09	
Cash provided by operating activities	\$	91.4	\$	64.8	
Capital expenditures		(36.2)		(29.8)	
Change in committed cash		9.9		13.4	
Other		11.6		4.2	
CAD		76.7		52.6	
Mandatory debt repayments		-		-	
Adjusted CAD	\$	76.7	\$	52.6	

For the three months ended March 31, 2010, adjusted CAD was \$24 million higher than the prior year period primarily due to higher earnings. Adjusted CAD generated in any period is not necessarily indicative of amounts that may be generated in future periods.

Liquidity Facilities

We have a \$250 million unsecured revolving credit facility at an interest rate of LIBOR plus 40 basis points. The facility expires in August 2011. At March 31, 2010, the available borrowing capacity was \$245 million.

In connection with our installment notes, \$75 million five-year term loan agreement, and \$250 million revolving credit facility, covenants must be met, including ratios based on the facility's definition of EBITDA, Funds from Operations, and ratios of cash flows to fixed charges. At March 31, 2010, we are in compliance with all covenants.

In addition to these financial covenants, the installment notes, five-year term loan agreement and credit facility include customary covenants that limit the incurrence of debt, the disposition of assets, and the making of certain payments between RFR and Rayonier among others. An asset sales covenant in the RFR installment note-related agreements requires us, subject to certain exceptions, to either reinvest cumulative timberland sales proceeds for individual sales greater than \$10 million (the "excess proceeds") in timberland-related investments and activities or, once the amount of excess proceeds not reinvested exceeds \$50 million, to offer the note holders prepayment of the notes ratably in the amount of the excess proceeds. As of December 31, 2009, the excess proceeds were \$19.8 million. During March 2010, the excess proceeds exceeded the \$50 million limit and as a result, repayment of \$53.0 million was offered to the note holders. The note holders declined the offer and the excess proceeds were reset to zero.

Contractual Financial Obligations and Off-Balance Sheet Arrangements

We have no material changes to the Contractual Financial Obligations table as presented in Item 7 - - Management's Discussion and Analysis of Financial Condition and Results of Operations of our 2009 Annual Report on Form 10-K. See Note 9 - Guarantees for details on the letters of credit, surety bonds and guarantees as of March 31, 2010.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market and Other Economic Risks

Our exposures to market risk have not changed materially since December 31, 2009. For quantitative and qualitative disclosures about market risk, see Item 7A - Quantitative and Qualitative Disclosures about Market Risk in our 2009 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Rayonier management is responsible for establishing and maintaining adequate disclosure controls and procedures. Disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act")), are designed with the objective of ensuring that information required to be disclosed by the Company in reports filed under the Exchange Act, such as this quarterly report on Form 10-Q, is (1) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's ("SEC") rules and forms and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Because of the inherent limitations in all control systems, no control evaluation can provide absolute assurance that all control exceptions and instances of fraud have been prevented or detected on a timely basis. Even systems determined to be effective can provide only reasonable assurance that their objectives are achieved.

Based on an evaluation of our disclosure controls and procedures as of the end of the period covered by this quarterly report on Form 10-Q, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that the design and operation of the disclosure controls and procedures were effective as of March 31, 2010.

In the quarter ended March 31, 2010, based upon the evaluation required by paragraph (d) of SEC Rule 13a-15, there were no changes in our internal control over financial reporting that would materially affect or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The following table provides information regarding our purchases of Rayonier common stock during the quarter ended March 31, 2010:

CERTIFICATION

I, Lee M. Thomas, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Rayonier Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
