1. BASIS OF PRESENTATION AND NEW ACCOUNTING PRONOUNCEMENTS

Basis of Presentation

The unaudited condensed consolidated financial statements and notes thereto of Rayonier Inc. and its subsidiaries (“Rayonier” or “the Company”) were prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission. In the opinion of management, these financial statements and notes reflect all adjustments (including normal recurring adjustments) necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. These statements and notes should be read in conjunction with the financial statements and supplementary data included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2008, as filed with the Securities and Exchange Commission.

New or Recently Adopted Accounting Pronouncements

In May 2008, the FASB issued FASB Staff Position No. APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)* (“FSP APB 14-1”). FSP APB 14-1 requires that entities with convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) separately account for the liability and equity components in a manner that reflects the entity’s nonconvertible debt borrowing rate when interest expense is recognized in subsequent periods. The Company adopted FSP APB 14-1 on January 1, 2009 and retrospectively applied the fair value of the equity component net of accumulated amortization in 2007 and 2008. The adoption of FSP APB 14-1 resulted in the recognition of a \$23.7 million debt discount, an \$8.7 million deferred tax liability and a \$15.0 million increase to shareholders’ equity, net of income taxes as of December 31, 2008. The Company recorded additional interest expense, net of tax benefits, related to the amortization of the debt discount of \$1.8 million, or \$.02 per diluted share, and \$1.7 million or \$0.02 per diluted share, in the six months ended June 30, 2009 and 2008. See Note 15 – *Convertible Debt* for additional information on the Company’s convertible debt.

In December 2008, the FASB issued FSP No. FAS 132(R)-1, *Employers’ Disclosures about Postretirement Benefit Plan Assets*. The FSP amends SFAS No. 132(R), *Employers’ Disclosures about Pensions and Other Postretirement Benefits – an amendment of FASB Statements No. 87, 88 and 106*, to require disclosure of investment policies, strategies, categories of plan assets and information about the fair value measurements of plan assets of a defined pension or other postretirement plan. The disclosures are effective for fiscal years ending after December 15, 2009.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (“SFAS 165”). This standard is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Specifically, this standard sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS No. 165 is effective for fiscal years and interim periods ended after June 15, 2009. As such, the Company evaluated events and transactions that occurred during the period from June 30, 2009, the date of the balance sheet, through July 31, 2009, the date of issuance of the unaudited interim condensed financial statements, for potential recognition or disclosure in the accompanying unaudited interim condensed consolidated financial statements and did not identify any events or transactions that should be recognized or disclosed in the accompanying unaudited interim condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets – an amendment of FASB Statement No. 140*. SFAS No. 166 eliminates the concept of a “qualifying special-purpose entity” (QSPE) and associated guidance and creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale. Existing QSPEs will be evaluated for consolidation under the provisions of FASB Interpretation No. 46(R) as amended by SFAS No. 167, *Amendments to FASB Interpretation No. 46-(R)* (“SFAS 167”). The Standard is effective for fiscal years beginning after November 15, 2009. The Company is currently in the process of evaluating the impact, if any, the Standard may have on its consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167. The purpose of this standard is to improve disclosures by public entities and enterprises by replacing the quantitative-based risks and rewards calculation for determining which enterprise has a controlling interest in a variable interest entity with an approach primarily qualitative in nature. This Statement requires additional disclosures about an enterprise’s involvement in variable interest entities and is effective for financial statements issued for fiscal years beginning after November 15, 2009. The Company has not yet determined the impact of this pronouncement on its consolidated financial statements.

RAYONIER INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)
(Dollars in thousands unless otherwise stated)

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162 (“The FASB Codification”)*. The FASB Codification brings together all authoritative GAAP previously in levels A through D of the GAAP hierarchy and becomes the exclusive authoritative reference for use in U.S. GAAP financial statements issued for interim and annual periods ending after September 15, 2009. Upon adoption, the Company’s financial statements will contain FASB Codification references in place of any corresponding references to legacy accounting pronouncements. The FASB Codification will have no impact on the Company’s consolidated financial position, future results of operations or cash flows.

2. ALTERNATIVE FUEL MIXTURE CREDIT

The U.S. Internal Revenue Code provides a tax credit for taxpayers that produce and use an alternative fuel in the operation of their business. Rayonier produces an alternative fuel (“black liquor”) at its Jesup, Georgia and Fernandina Beach, Florida Performance Fibers pulp mills. The credit is \$0.50 per gallon for each gallon of alternative fuel used in operations. On April 8, 2009, Rayonier received notification from the Internal Revenue Service that its application for registration as an alternative fuel mixer had been approved. Accordingly, the Condensed Consolidated Statements of Income and Comprehensive Income for the three and six months ended June 30, 2009, include a credit of approximately \$92 million recorded in “Other operating income, net,” less \$6.1 million of associated expenses, for black liquor used from January 19, 2009 through the end of the second quarter. The Company will continue to recognize credits as they are earned through the expiration of the tax credit, currently scheduled for December 31, 2009; however, changes in law could be proposed or enacted during 2009 that may limit or terminate the Company’s eligibility for this credit.

3. INVESTMENT IN JOINT VENTURE

The Company holds a 40 percent interest in a joint venture (“JV”) that owns or leases approximately 329,000 acres of New Zealand timberlands. In addition to the investment, Rayonier New Zealand Limited (“RNZL”), a wholly-owned subsidiary of Rayonier Inc., serves as the manager of the JV forests and operates a log trading business. In the third quarter of 2008, Rayonier’s Board of Directors approved a plan to offer to sell the Company’s 40 percent interest in the JV as well as the operations of RNZL. Collectively, the Company’s JV interest and RNZL operations qualified as a component of an entity under SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. As a result, the operating results of the JV and RNZL were segregated from continuing operations in the Condensed Consolidated Statements of Income and Comprehensive Income and reported as discontinued operations. The assets and liabilities were classified as “Assets held for sale” and “Liabilities associated with assets held for sale” in the Condensed Consolidated Balance Sheets.

In the second quarter of 2009, as a result of stressed capital markets and the weak global economic conditions, Rayonier and its joint venture partners decided to discontinue the sale process of their New Zealand holdings and continue with on-going operations. Accordingly, the interest in the JV and the operations of RNZL no longer qualify for treatment as discontinued operations. As such, the operating results are included in continuing operations in the Condensed Consolidated Statements of Income and Comprehensive Income for all periods presented. The December 31, 2008 Condensed Consolidated Balance Sheet has been restated to classify the assets and liabilities from “Assets held for sale” and “Liabilities associated with assets held for sale” to the appropriate line items.

Diluted earnings per common share: (1)	\$ 1.35	\$ 0.46	\$ 1.68	\$ 0.96

(1) 2008 has been restated as a result of adopting FSP APB 14-1. See Note 1 – *Basis of Presentation and New Accounting Pronouncements*.

5. INCOME TAXES

Rayonier is a real estate investment trust (“REIT”). In general, only the Company’s taxable REIT subsidiaries, whose businesses include the Company’s non-REIT qualified activities, are subject to U.S. federal and state corporate income taxes. However, the Company is subject to U.S. federal corporate income tax on built-in gains (the excess of fair market value over tax basis for property held by the Company upon REIT election at January 1, 2004) on taxable sales of such built-in gain property during the first 10 years following the election to be taxed as a REIT. Accordingly, the provision for corporate income taxes relates principally to current and deferred taxes on income from taxable REIT subsidiary operations and on certain property sales. In addition, the Company is subject to foreign tax on non-U.S. operations.

Provision for Income Taxes

The Company’s effective tax rate is below the 35 percent U.S. statutory tax rate primarily due to tax benefits associated with being a REIT and like-kind exchange (“LKE”) transactions. Second quarter tax rates before discrete items were 21.5 percent and 11.1 percent in 2009 and 2008, respectively. Year-to-date effective tax rates were 20.2 percent and 16.0 percent in 2009 and 2008 respectively. The REIT income not subject to tax decreased the tax rates by 14.1 percent and 19.8 percent for the six months ending June 30, 2009 and 2008, respectively. The increased rates in 2009 were due to proportionately higher earnings from the Company’s taxable REIT subsidiary.

Including discrete items, the effective tax rates for the quarter and year-to-date were 11.9 percent and 12.6 percent compared to 11.1 percent and 15.8 percent in 2008, respectively.

FIN 48 Disclosures

In accordance with the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (“FIN 48”), the Company recognizes the impact of a tax position if the position is “more likely than not” to prevail upon examination by the IRS. In the second quarter of 2009, the Company increased its FIN 48 liability by \$8.2 million to \$10.7 million to reflect changes as a result of the IRS’ examination of tax years 2005 and 2006 and to record a reserve for uncertain positions to be claimed during the current year.

6. RESTRICTED DEPOSITS

For certain real estate sales to qualify for LKE treatment, the sales proceeds must be deposited with a third party intermediary and accounted for as restricted cash until qualifying replacement property is acquired. In the event that LKE purchases are not completed, the proceeds are returned to the Company and reclassified as cash after 180 days. As of June 30, 2009 and December 31, 2008, the Company had \$2.6 million and \$1.5 million, respectively, of proceeds from real estate sales classified as restricted cash in Other Assets, which were on deposit with an LKE intermediary.

8. SEGMENT INFORMATION

Rayonier operates in four reportable business segments as defined by SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*: Timber, Real Estate, Performance Fibers, and Wood Products. Timber sales include all activities that relate to the harvesting of timber. Real Estate sales include all property sales, including those designated for higher and better use ("HBU"). The assets of the Real Estate segment include HBU property held by the Company's real estate subsidiary, TerraPointe LLC, and parcels under contract previously in the Timber segment. Allocations of depletion expense and non-cash costs of real estate sold are recorded when the Real Estate segment sells an asset from the Timber segment. The Performance Fibers segment includes two major product lines, cellulose specialties and absorbent materials. The Wood Products segment is comprised of the Company's lumber operations. The Company's remaining operations include harvesting and selling timber acquired from third parties (log trading). These operations are combined and reported in "Other Operations." Sales between operating segments are made based on fair market value, and intercompany sales, purchases and profits (losses) are eliminated in consolidation. The Company evaluates financial performance based on the operating income of the segments.

Operating income (loss) as presented in the Condensed Consolidated Statements of Income and Comprehensive Income is equal to segment income (loss). Certain income (loss) items in the Condensed Consolidated Statements of Income and Comprehensive Income are not allocated to segments. These items, which include gains (losses) from certain asset dispositions, interest income (expense), miscellaneous income (expense) and income tax (expense) benefit, are not considered by Company management to be part of segment operations.

Total assets, sales, operating income (loss) and depreciation, depletion and amortization by segment including Corporate were as follows:

9. FINANCIAL INSTRUMENTS

Commodity Swap Agreements

The Company enters into commodity forward contracts to fix some of its fuel oil and natural gas costs at its Performance Fibers mills. The forward contracts partially mitigate the risk of a change in Performance Fibers' margins resulting from an increase or decrease in fuel oil and natural gas prices. At June 30, 2009, the Company had hedges through the end of 2009 on 38,200 barrels of fuel oil. The Company's commodity forward contracts do not qualify for hedge accounting under SFAS 133 and instead are required to be marked-to-market. The mark-to-market adjustments are recorded in "Other operating income, net."

The following table presents the location of all assets and liabilities associated with the Company's hedging instruments within the Condensed Consolidated Balance Sheets:

Derivatives not designated as hedging instruments under SFAS 133	Balance Sheet Location	Fair Value at:

10. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value on a recurring basis are summarized below:

Asset (liability)	Carrying Value at June 30, 2009	Level 2
Commodity swap agreements	\$ (353)	\$ (353)
Investment in qualified special purpose entity	2,757	2,757

The following table presents the carrying amount and estimated fair values of financial instruments held by the Company at June 30, 2009 and December 31, 2008, using market information and what the Company believes to be appropriate valuation methodologies under SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*.

Asset (liability)	June 30, 2009		December 31, 2008	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 59,889	\$ 59,889	\$ 61,685	\$ 61,685
Short-term debt	(620)	(620)	(620)	(620)
Long-term debt	(749,475)	(742,478)	(746,591)	(700,369)

Rayonier uses the following methods and assumptions in estimating the fair value of its financial instruments:

Cash and cash equivalents—The carrying amount is equal to fair market value.

Debt—The Company's short-term bank loans and floating rate debt approximate fair value. The fair value of fixed rate long-term debt is based upon quoted market prices for debt with similar terms and maturities.

11. GUARANTEES

The Company provides financial guarantees as required by creditors, insurance programs and state and non-U.S. governmental agencies. As of June 30, 2009, the following financial guarantees were outstanding:

	Maximum Potential Payment	Carrying Amount of Liability
Standby letters of credit (1)	\$ 45,005	\$ 39,263
Guarantees (2)	3,647	53
Surety bonds (3)	11,128	1,956
Total	<u>\$ 59,780</u>	<u>\$ 41,272</u>

- (1) Approximately \$39 million of the standby letters of credit serve as credit support for industrial revenue bonds. The remaining letter of credit supports obligations under various insurance related agreements, primarily workers' compensation and pollution liability policy requirements. These letters of credit expire at various dates during 2009 and 2010, and will be renewed as required.
- (2) In conjunction with RNZL's sale of timberlands to the New Zealand JV in October 2005, the Company guaranteed five years of Crown Forest license obligations. The JV is the primary obligor and has posted a bank performance bond with the New Zealand government. If the JV fails to pay the obligation, the New Zealand government will demand payment from the bank that posted the bond. If the bank defaults on the bond, the Company would then have to perform. As of June 30, 2009, an annual payment of \$1.1 million remains. This guarantee expires in 2010.

RAYONIER INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)
(Dollars in thousands unless otherwise stated)

In conjunction with a timberland sale and note monetization in the first quarter of 2004, the Company issued a make-whole agreement pursuant to which it guaranteed \$2.5 million of obligations of a qualified special purpose entity that was established to complete the monetization. At June 30, 2009 and December 31, 2008, the Company has recorded a de minimus liability to reflect the fair market value of its obligation to perform under the make-whole agreement.

- (3) Rayonier issued surety bonds primarily to secure timber in the State of Washington and to provide collateral for the Company's workers' compensation self-insurance program in Washington and Georgia. These surety bonds expire at various dates during 2009 and 2010, and are renewed as required.

12. LIABILITIES FOR DISPOSITIONS AND DISCONTINUED OPERATIONS

An analysis of activity in the liabilities for dispositions and discontinued operations for the six months ended June 30, 2009 and the year ended December 31, 2008, is as follows:

	June 30, 2009	December 31, 2008
Balance, January 1	\$ 104,575	\$ 113,685
Expenditures charged to liabilities	(4,102)	(7,660)
Increase (reduction) to liabilities	967	(1,450)
Balance, end of period	101,440	104,575
Less: Current portion	(8,402)	(8,214)
Non-current portion	<u>\$ 93,038</u>	<u>\$ 96,361</u>

The Company believes established liabilities are sufficient for costs expected to be incurred over the next 20 years with respect to its dispositions and discontinued operations. The Company is exposed to the risk of reasonably possible additional losses in excess of the established liabilities. As of June 30, 2009, this amount could range up to \$32 million and arises from uncertainty over the availability or effectiveness of certain remediation technologies, additional or different contamination that may be discovered, development of new or improved environmental remediation technologies, changes in applicable law and the exercise of discretion in interpretation of applicable law and regulations by governmental agencies.

For additional information on the Company's environmental liabilities refer to Note 15 – *Liabilities for Dispositions and Discontinued Operations* in the 2008 Annual Report on Form 10-K.

13. CONTINGENCIES

From time to time, Rayonier becomes subject to pending and threatened litigation in commercial, tort, regulatory and environmental matters among others. For additional information refer to Note 16 – *Contingencies* in the 2008 Annual Report on Form 10-K.

The Company has been named as a defendant in various other lawsuits and claims arising in the normal course of business. While the Company has procured reasonable and customary insurance covering risks normally occurring in connection with its businesses, it has in certain cases retained some risk through the operation of self-insurance, primarily in the areas of workers' compensation, property insurance, and general liability. These other lawsuits and claims, either individually or in the aggregate, are not expected to have a material effect on the Company's financial position, results of operations, or cash flow. Note the following:

East Point, Georgia Notice of Violation ("NOV") — On March 28, 2008, SWP received an NOV and Proposed Consent Order (the "Order") from the Environmental Protection Division ("EPD") of the Georgia Department of Natural Resources relating to its East Point, Georgia site. The Order asserted that SWP violated conditions in its permit issued under the Resource Conservation and Recovery Act ("RCRA"), specifically related to SWP's alleged failure to report the presence of oil (referred to as DNAPL, or dense non-aqueous phase liquid) in a monitoring well. Under the terms of the Order, EPD proposed a fine of \$0.8 million and demanded that SWP perform a facility-wide remedial investigation; also, based on such investigation, EPD has required that SWP prepare a new corrective action plan for the facility. Finally, EPD requested an increase in SWP's financial assurance for the site based on a new estimate to be completed in the future. (Note that financial assurance is provided for SWP via a Rayonier Inc. guaranty.) The Company responded to the proposed NOV and denied liability for any permit violations or civil penalty. Discussions with EPD to resolve the NOV reached an impasse in the second quarter of 2009 and, on July 9, 2009, EPD

RAYONIER INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)
(Dollars in thousands unless otherwise stated)

served SWP with an administrative order (“AO”). Among other things, the AO requires SWP to commence a new site-wide RCRA investigation (note that the site has been in the RCRA corrective action process under EPD oversight for over 20 years) and remediate all contamination on the site within three years. SWP believes that the AO is contrary to law and, based on decades of scientific data relating to sites similar to the East Point site, the ordered remedy is scientifically and technologically infeasible. No fine or penalty is included in the AO, although there can be no assurances as to future penalty actions by EPD in this matter. The Company has appealed the AO and will vigorously defend itself in this matter. The Company believes that, based on current information, its liabilities at June 30, 2009 adequately reflect the probable costs to be incurred upon the ultimate resolution of these matters.

There have been no material changes in the status of the other specific matters referenced in Note 16 – *Contingencies* in the 2008 Annual Report on Form 10-K.

14. EMPLOYEE BENEFIT PLANS

The Company has four qualified non-contributory defined benefit pension plans covering a majority of its employees and an unfunded pension plan that provides benefits in excess of amounts allowable under current tax law in the qualified plans. Employee benefit plan liabilities are calculated using actuarial estimates and management assumptions. These estimates are based on historical information, along with certain assumptions about future events. Changes in assumptions, as well as changes in actual experience, could cause the estimates to change.

The net periodic benefit costs for the Company’s pension and postretirement plans (medical and life insurance) are shown in the following table:

	Pension		Postretirement

The Company contributed approximately \$5 million to the pension plans during the six months ended June 30, 2009. The Company is required to make pension contributions of approximately \$9 million in 2009, but may elect to make additional discretionary contributions.

15. CONVERTIBLE DEBT

In October 2007, TRS issued \$300 million of 3.75% Senior Exchangeable Notes due 2012. The notes are guaranteed by Rayonier Inc. and are non-callable. The \$300 million in principal will be settled in cash and any excess exchange value will be settled at the option of the Company in either cash or stock of Rayonier Inc. Note holders may convert their notes subject to certain conversion provisions including the market price of the Company's common stock and the trading price of the convertible notes. The initial exchange rate is 18.24 shares per \$1,000 principal based on an exchange price equal to 122 percent of the stock's closing price of \$44.93 on October 10, 2007, or \$54.81 per share.

In separate transactions, TRS and Rayonier purchased an exchangeable note hedge and sold warrants, respectively, based on 5,472,991 underlying shares of Rayonier Inc. These transactions had the effect of increasing the conversion premium from 22 percent to 40 percent or to \$62.90 per share. On exercise of the hedge, TRS will receive shares of Rayonier Inc. common stock equal to the difference between the then market price and the strike price of \$54.81. The holders of the warrants will receive net shares from Rayonier if the share price is above \$62.90 at maturity of the warrants.

The purchased hedge and sold warrants are not part of the terms of the notes and will not affect the note holders' rights. Likewise, the note holders will not have any rights with respect to the hedge or the warrants. The purchased hedge and the sold warrants meet the definition of derivatives under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*. However, because these instruments have been determined to be indexed to the Company's own stock in accordance with EITF Issue No. 01-6, *The Meaning of Indexed to a Company's Own Stock*, and have been recorded in shareholders' equity in the Condensed Consolidated Balance Sheet (as determined under EITF Issue No. 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*), the instruments meet the scope exception of SFAS No. 133 and are not subject to the mark-to-market provisions of that standard.

The amounts related to the convertible debt in the Condensed Consolidated Balance Sheets are as follows:

	June 30, 2009	December 31, 2008
Liabilities:		
Principal amount of debt	\$ 300,000	\$ 300,000
Unamortized discount	<u>(20,865)</u>	<u>(23,748)</u>
Net carrying amount of debt	\$ 279,135	\$ 276,252
Equity:		
Common Stock	\$ 19,243	\$ 19,243

The unamortized discount will be amortized through October 2012.

The amount of interest related to the convertible debt recognized in the Condensed Consolidated Statements of Income and Comprehensive Income is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Contractual interest coupon	\$ 2,812	\$ 2,812	\$ 5,625	\$ 5,625
Amortization of debt discount	1,442	1,342	2,883	2,685
Total interest expense recognized	<u>\$ 4,254</u>	<u>\$ 4,154</u>	<u>\$ 8,508</u>	<u>\$ 8,310</u>

The effective interest rate on the liability component for the three and six months ended June 30, 2009 and 2008 was 6.21%.

16. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Accumulated Other Comprehensive Income (Loss) was comprised of the following:

	June 30, 2009	December 31, 2008
Foreign currency translation adjustments	\$ 21,736	\$ 10,789
Joint venture cash flow hedges	(2,627)	-
Unrecognized components of employee benefit plans, net of tax	(107,969)	(109,085)
Total	<u>\$ (88,860)</u>	<u>\$ (98,296)</u>

During the six months ended June 30, 2009, the increase in net foreign currency translation adjustments was due to the strengthening of the New Zealand dollar against the U.S. dollar.

17. CONSOLIDATING FINANCIAL STATEMENTS

In October 2007, Rayonier TRS Holdings Inc. ("TRS"), a wholly-owned subsidiary of Rayonier Inc., issued \$300 million of 3.75% Senior Exchangeable Notes due 2012. The notes are guaranteed by Rayonier Inc. and are non-callable. In connection with these exchangeable notes, the Company provides the following condensed consolidating financial information in accordance with SEC Regulation S-X Rule 3-10, *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements, except for the use of the equity method of accounting to reflect ownership interests in wholly-owned subsidiaries which are eliminated upon consolidation and the allocation of certain expenses of Rayonier Inc., incurred for the benefit of its subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

When we refer to "we," "us," "our," "the Company," or "Rayonier," we mean Rayonier Inc. and its consolidated subsidiaries. References herein to "Notes to Financial Statements" refer to the Notes to the Condensed Consolidated Financial Statements of Rayonier Inc. included in Item 1 of this Report.

Our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition, results of operations, liquidity, and certain other factors which may affect our future results. Our MD&A should be read in conjunction with our 2008 Annual Report on Form 10-K.

Forward - Looking Statements

Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, provide a "safe harbor" for forward-looking statements to encourage companies to provide prospective information about their companies. Certain statements in this document regarding anticipated financial outcomes including earnings guidance, if any, business and market conditions, outlook and other similar statements relating to Rayonier's future financial and operational performance, are "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. These forward-looking statements are identified by the use of words such as "may," "will," "should," "expect," "estimate," "believe," "anticipate" and other similar language.

Forward looking statements are subject to future events, risks and uncertainties (many of which are beyond our control or are currently unknown to us) as well as potentially inaccurate estimates, assumptions and judgments by us that could cause actual results to differ materially from results contemplated by our forward-looking statements. Some of these events, risks and uncertainties are set forth in Item 1A – *Risk Factors* in our 2008 Annual Report on Form 10-K and our 2009 reports on Form 10-Q. Forward-looking statements are not guarantees of future performance and undue reliance should not be placed on these statements.

Critical Accounting Policies and Use of Estimates

The preparation of our consolidated financial statements requires us to make estimates, assumptions and judgments that affect our assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. We base these estimates and assumptions on historical data and trends, current fact patterns, expectations and other sources of information we believe are reasonable. Actual results may differ from these estimates under different conditions. For a full description of our critical accounting policies, see Item 7 – *Management's Discussion and Analysis of Financial Condition and Results of Operations* in the 2008 Annual Report on Form 10-K.

Segments

We are a leading international forest products company primarily engaged in activities associated with timberland management, the sale and entitlement of real estate, and the production and sale of high value specialty cellulose fibers and fluff pulp. We operate in four reportable business segments: Timber, Real Estate, Performance Fibers, and Wood Products. Timber sales include all activities that relate to the harvesting of timber. Real Estate sales include all property sales, including those designated for higher and better use ("HBU"). The assets of the Real Estate segment include HBU property held by the Company's real estate subsidiary, TerraPointe LLC, and parcels under contract previously in the Timber segment. The Performance Fibers segment includes two major product lines, cellulose specialties and absorbent materials. The Wood Products segment is comprised of the Company's lumber operations. Our remaining operations include harvesting and selling timber acquired from third parties (log trading). These operations are combined and reported in "Other Operations." Sales between operating segments are made based on the fair market value and intercompany profit or loss is eliminated in consolidation.

In the second quarter of 2009, as a result of stressed capital markets and the weak global economic conditions, Rayonier and its joint venture partners decided to discontinue the sale process of their New Zealand holdings and continue with on-going operations. As such, the operating results are included in continuing operations (See Note 3 – *Investment in Joint Venture* for additional information).

We evaluate financial performance based on the operating income of the segments. Operating income, as presented in the Condensed Consolidated Statements of Income and Comprehensive Income, is equal to segment income (loss). Certain income (loss) items in the Condensed Consolidated Statements of Income and Comprehensive Income are not allocated to segments. These items, which include gains (losses) from certain asset dispositions, interest income (expense), miscellaneous income (expense) and income tax (expense) benefit, are not considered by Company management to be part of segment operations.

In the Eastern Region, sales and operating income increased from the prior year periods. Volumes rose 8 percent and 13 percent while average prices declined 16 and 18 percent, for the three and six months ended June 30, 2009 from the prior year periods, respectively, reflecting a sales shift from sawtimber to lower-priced pulpwood. Additionally, the results reflect lower costs due to sales mix and increased non-timber income.

In the Western region, sales and operating income were below the prior year periods as weak demand and planned harvest reductions continued to negatively impact prices and volumes. Average prices in the region declined 17 percent and 20 percent for the quarter and year-to-date periods, respectively, while volumes declined 45 percent for both periods compared to the prior year periods, respectively. Operating income was further impacted by higher depletion costs from a second quarter 2008 timberland acquisition, somewhat offset by lower production and overhead costs. The Company plans to continue operating at reduced harvest levels until market conditions improve.

The year-to-date results were also impacted by lower equity earnings from the New Zealand joint venture due to weaker markets and the absence of a first quarter 2008 land transaction.

Sales and operating income increased during the three and six months ended June 30, 2009, compared to the prior year periods due to higher non-strategic timberland volumes, partially offset by a decline in rural property sales and lower per acre prices due to sales mix. Second quarter of 2009 included a 29,933 acre non-strategic timberland sale in central Georgia for \$33.4 million.

PERFORMANCE FIBERS

Cellulose specialties prices increased 19 percent and 18 percent for the three and six months ended June 30, 2009 compared to the prior year periods, respectively, while volumes declined 23 percent and 12 percent for the quarter and year, respectively, primarily due to timing of customer orders. A number of customers undertook inventory destocking initiatives in the second quarter of 2009 due to global economic weakness.

Table of Contents

Absorbent materials prices declined 16 percent and 9 percent as volumes increased 26 percent and 21 percent for the quarter and year, respectively. Prices declined due to weaker markets, while volumes increased from improved production as the 2008 results were impacted by unplanned maintenance outages.

Sales declined during both 2009 periods as a result of lower prices and volumes due to the weak housing market and planned production curtailments. We are operating below capacity at our lumber mills and plan to continue at these levels until market conditions improve.

Operating results declined in 2009 from the prior year periods as lower prices were partially offset by improved wood costs.

OTHER OPERATIONS

Sales of \$9 million for the second quarter were \$6 million below the prior year period while operating income declined \$3 million to an operating loss of \$2 million. For the six months ended June 30, 2009, sales of \$15 million and an operating loss of \$1 million were \$14 million and \$2 million below the prior year period, respectively. These results are primarily the result of lower log trading volumes and prices in addition to foreign exchange losses.

Corporate and Other Expenses

In April 2009, we became certified as an alternative fuel mixer entitling us to be eligible for the alternative fuel mixture credit of 50 cents per gallon of "black liquor" (a biomass based fuel) burned as part of an alternative fuel mixture at our Performance Fibers mills. The second quarter includes other income of \$86 million for the credit (See Note 2 – *Alternative Fuel Mixture*)

[Table of Contents](#)

Credit). Excluding the alternative fuel mixture credit, corporate and other expenses declined \$2 million for the three and six months ended June 30, 2009 compared to the prior year periods, primarily due to general cost reductions. The Company will continue to recognize credits as they are earned through the expiration of the tax credit, currently scheduled for December 31, 2009; however, changes in law could be proposed or enacted during 2009 that may limit or terminate the Company's eligibility for this credit.

Interest Expense and Other Income, Net

Interest expense and other income, net for second quarter 2009 was consistent with the prior year period while the year-to-date results increased \$1 million, due to higher average net debt balances offset by lower average interest rates.

Income Tax Expense

The second quarter effective tax rates before discrete items were 21.5 percent and 11.1 percent in 2009 and 2008, respectively. Year-to-date effective tax rates were 20.2 percent and 16.0 percent in 2009 and 2008, respectively. The increased rates in 2009 were due to proportionately higher earnings from the Company's taxable REIT subsidiary.

Including discrete items, the effective tax rates for the quarter and year-to-date were 11.9 percent and 12.6 percent compared to 11.1 percent and 15.8 percent in 2008, respectively.

Outlook

Our unique business mix, strong balance sheet, and conservative debt levels provide significant operating flexibility. We expect to generate strong cash flows in 2009 well above our \$2.00 per share dividend and are increasing our full year guidance for CAD to be comparable to 2008. Also, we anticipate EBITDA to be only 5 percent to 10 percent below 2008 and EPS to be 15 percent to 20 percent lower.

We are encouraged by the gradual improvement recently seen in housing starts and the continued export demand for our Western and New Zealand timber; however, we will continue to reduce sawtimber harvest levels until demand and pricing improve. In Real Estate, we expect continued interest in our rural HBU and non-strategic timberlands. Performance Fibers earnings are expected to remain strong and above 2008 levels.

Liquidity and Capital Resources

Historically, our operations have generally produced consistent cash flows and required limited capital resources. Short-term borrowings have helped fund cyclical and seasonality in working capital needs and long-term debt has been used to fund major acquisitions. We have \$122 million in installment notes coming due on December 31, 2009 and anticipate refinancing these notes by accessing the corporate debt markets, or by borrowing under our revolving bank facility which has \$145 million of capacity as of June 30, 2009.

Cash Provided by Operating Activities (in millions of dollars)

	2009	2008	Decrease
Six months ended June 30,	\$ 127	\$ 155	\$ 28

Cash provided by operating activities decreased \$28 million primarily from increased working capital requirements due to the timing of customer payments, lower earnings from operations in the timber segment and higher inventory levels resulting from lower second quarter 2009 shipments.

[Table of Contents](#)**Cash Used for Investing Activities (in millions of dollars)**

	2009	2008	Decrease
Six months ended June 30,	\$ 53	\$ 284	\$ 231

Cash used for investing activities decreased as we had no significant timberland acquisitions this year versus acquisitions of \$229 million of timberlands in 2008. In addition, capital expenditures were lower by \$10 million, partially offset by changes in restricted cash.

Cash Used for Financing Activities (in millions of dollars)

	2009	2008	Increase
Six months ended June 30,	\$ 76	\$ 31	\$ 45

Cash used for financing activities increased in 2009 primarily due to net borrowings of \$45 million in 2008.

Expected 2009 Expenditures

We made pension contributions of \$5 million in the first six months of 2009 compared to no contributions made in the same period of 2008. We have mandatory pension contributions of approximately \$9 million due in 2009, although we may elect to make additional discretionary contributions. Income tax payments totaled \$5 million during the first six months of 2009 compared to payments of \$4 million in the same period 2008. We expect net tax payments to be approximately \$9 million for full year 2009, compared to \$13 million for full year 2008. We do not expect to make any estimated federal income tax payments related to our 2009 TRS operations as we anticipate offsetting the TRS federal income tax liability with the alternative fuel mixture credit. See Note 2 – *Alternative Fuel Mixture Credit* for additional information. Capital expenditures in 2009 are forecasted to be between \$87 million and \$90 million. Environmental expenditures related to dispositions and discontinued operations were \$4 million for the first six months ended June 30, 2009. Full year expenditures of approximately \$7 million are anticipated.

Liquidity Performance Indicators

The discussion below is presented to enhance the reader's understanding of our liquidity, ability to generate cash and satisfy rating agency and creditor requirements. This information includes two measures of financial results: Earnings before Interest, Taxes, Depreciation, Depletion and Amortization ("EBITDA") and Adjusted Cash Available for Distribution ("Adjusted CAD"). These measures are not defined by Generally Accepted Accounting Principles ("GAAP") and the discussion of EBITDA and Adjusted CAD is not intended to conflict with or change any of the GAAP disclosures discussed above. Management considers these measures to be important to estimate the enterprise and shareholder values of the Company as a whole and of its core segments, and for allocating capital resources. In addition, analysts, investors and creditors use these measures when analyzing our financial condition and cash generating ability. EBITDA is defined by the Securities and Exchange Commission. Adjusted CAD as defined, however, may not be comparable to similarly titled measures reported by other companies.

Below is a reconciliation of Cash Provided by Operating Activities to EBITDA for the respective periods (in millions of dollars):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Cash provided by operating activities	\$ 62.4	\$ 54.7	\$ 127.2	\$ 154.9
Non-cash cost of real estate sold	(1.7)	(2.0)	(5.2)	(4.6)
Income tax expense	14.5	4.6	19.2	14.3

Balance sheet changes related to the alternative fuel mixture credit	79.3	-	79.3	-
Other balance sheet changes	15.9	22.3	19.1	(2.1)
EBITDA	<u>\$ 182.4</u>	<u>\$ 92.0</u>	<u>\$ 264.1</u>	<u>\$ 185.9</u>

EBITDA is a non-GAAP measure of operating cash generating capacity. For the three months ended June 30, 2009, EBITDA was \$90 million above the prior year period primarily due to the alternative fuel mixture credit of \$86 million recognized in the second quarter ended June 30, 2009. The majority of the cash from the alternative fuel mixture credit is expected to be received in 2010. Increased operating results in the Real Estate segment due to higher sales were mostly offset by lower operating results in the Timber segment due to lower sawtimber demand.

[Table of Contents](#)

For the six months ended June 30, 2009, EBITDA was \$264 million, \$78 million above the prior year period, primarily due to the alternative fuel mixture credit and higher sales in the Real Estate segment, partially offset by lower operating earnings in the Timber segment.

A non-cash expense critical to the economics of both our Timber and Real Estate core businesses is the non-cash cost basis of real estate sold. EBITDA plus the non-cash cost basis of real estate sold for the three and six months ended June 30, 2009 and 2008 totaled \$184 million and \$94 million, and \$269 million and \$191 million, respectively.

EBITDA is also used for evaluating segment cash return on investment, allocating resources and for valuation purposes. EBITDA by segment is a critical valuation measure used by the Chief Operating Decision Maker, existing shareholders and potential shareholders to measure how management is performing relative to the assets with which they have been entrusted. EBITDA by segment was as follows (millions of dollars):

	Three Months Ended June 30,		Six Months Ended June 30,

Adjusted CAD is a non-GAAP measure of cash generated during a period that is available for dividend distribution, repurchasing common shares, debt reduction and for strategic acquisitions net of associated financing (e.g. realizing LKE tax benefits). We define Cash Available for Distribution ("CAD") as Cash Provided by Operating Activities adjusted for capital spending, the tax benefits associated with certain strategic acquisitions, the change in committed cash, and other items which include cash provided by discontinued operations, proceeds from matured energy forward contracts and the change in capital expenditures purchased on account. Committed cash represents outstanding checks that have been drawn on our zero balance bank accounts but have not been paid. In compliance with Securities and Exchange Commission requirements for non-GAAP measures, we reduce CAD by mandatory debt repayments which results in the measure entitled "Adjusted CAD."

** The change in committed cash was mainly due to the timing of accounts payable disbursements.

For the six months ended June 30, 2009, adjusted CAD was consistent with the prior period. Adjusted CAD generated in any period is not necessarily indicative of amounts that may be generated in future periods.

Liquidity Facilities

We have a \$250 million unsecured revolving credit facility at an interest rate of LIBOR plus 40 basis points. The facility expires in August 2011. At June 30, 2009, the available borrowing capacity was \$145 million.

In connection with our installment notes and the \$250 million revolving credit facility, certain covenants must be met, including ratios based on the facility's definition of EBITDA ("Covenant EBITDA"). Covenant EBITDA consists of earnings from continuing operations before the cumulative effect of accounting changes and any provision for dispositions, income taxes, interest expense, depreciation, depletion, amortization and the non-cash cost of real estate sold. Our dividend restriction covenant limits the sum of dividends in any period of four fiscal quarters to 90 percent of Covenant Funds from Operations ("Covenant FFO") plus the aggregate amount of dividends permitted under Covenant FFO in excess of the amount of dividends paid during the prior four fiscal quarters. Covenant FFO is defined as Consolidated Net Income excluding gains or losses from debt restructuring and investments in marketable securities plus depletion, depreciation, amortization and the non-cash cost of real estate sold. Under a covenant relating to the \$328 million of installment notes, Rayonier Forest Resources, L.P. ("RFR"), a wholly-owned REIT subsidiary, may not incur additional debt unless, at the time of incurrence, and after giving pro forma effect to the receipt and application of the proceeds of such debt, RFR meets or exceeds a minimum ratio of cash flow to fixed charges. RFR's ability to make certain quarterly distributions to Rayonier Inc. is limited to an amount equal to RFR's "available cash," which consists of its opening cash balance plus proceeds from permitted borrowings. At June 30, 2009, we are in compliance with all covenants.

The covenants listed below, which are the most significant financial covenants in effect as of June 30, 2009, are calculated on a trailing 12-month basis:

	Covenant Requirement	Actual ratio at June 30, 2009	Favorable
Covenant EBITDA to consolidated interest expense should not be less than	2.50 to 1	9.70 to 1	7.20
Total debt to Covenant EBITDA should not exceed	4.00 to 1	1.59 to 1	2.41
RFR cash flow available for fixed charges to RFR fixed charges should not be less than	2.50 to 1	5.15 to 1	2.65
Dividends paid should not exceed 90 percent of Covenant FFO	90%	40%	50%

In addition to the financial covenants listed above, the installment notes and credit facility include customary covenants that limit the incurrence of debt, the disposition of assets, and the making of certain payments between RFR and Rayonier among others. An asset sales covenant in the RFR installment note-related agreements requires us, subject to certain exceptions, to either reinvest cumulative timberland sales proceeds for individual sales greater than \$10 million (the "excess proceeds") in timberland-related investments and activities or, once the amount of excess proceeds not reinvested exceeds \$50 million, to offer the note holders prepayment of the notes ratably in the amount of the excess proceeds. There were no excess proceeds as of June 30, 2009 or December 31, 2008.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market and Other Economic Risks

Our exposures to market risk have not changed materially since December 31, 2008. For quantitative and qualitative disclosures about market risk, see Item 7A—*Quantitative and Qualitative Disclosures about Market Risk* in our 2008 Annual Report of Form 10-K.

Item 4. Controls and Procedures

Rayonier management is responsible for establishing and maintaining adequate disclosure controls and procedures. Disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”)), are designed with the objective of ensuring that information required to be disclosed by the Company in reports filed under the Exchange Act, such as this quarterly report on Form 10-Q, is (1) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s (“SEC”) rules and forms and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Because of the inherent limitations in all control systems, no control evaluation can provide absolute assurance that all control exceptions and instances of fraud have been prevented or detected on a timely basis. Even systems determined to be effective can provide only reasonable assurance that their objectives are achieved.

Based on an evaluation of our disclosure controls and procedures as of the end of the period covered by this quarterly report on Form 10-Q, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that the design and operation of the disclosure controls and procedures provided reasonable assurance that the controls were effective as of June 30, 2009.

In the quarter ended June 30, 2009, based upon the evaluation required by paragraph (d) of SEC Rule 13a-15, there were no changes in our internal control over financial reporting that would materially affect or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Information regarding contingencies related to pending matters, threatened litigation, environmental and other matters is set forth in Note 13 – *Contingencies* of the Notes to Condensed Consolidated Financial Statements set forth in Part I of this Report, which are hereby incorporated by reference.

Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in our Form 10-K for the year ended December 31, 2008, except as noted below. For a full description of these risk factors, please refer to Item 1A—*Risk Factors*, in the 2008 Annual Report on Form 10-K.

The following has been added as a risk factor:

Alternative fuel mixture credit.

The Company has disclosed information concerning its eligibility for the alternative fuel mixture credit. See Note 2 – *Alternative Fuel Mixture Credit* for additional information. Under current law, the tax credit may be earned through the burning of qualifying fuel mixtures on or before December 31, 2009. There can be no assurance that the IRS will not challenge the Company's eligibility for such tax credit, or that changes in law will not be proposed or enacted during calendar year 2009 that may limit or terminate the Company's eligibility for this credit.

Item 4. Submission of Matters to a Vote of Security Holders

The Annual Meeting of Shareholders of the Company was held on April 6, 2009 (the "Annual Meeting"). At that meeting, five directors were elected as follows:

	<u>Votes For</u>	<u>Votes Against</u>	<u>Abstain</u>
<u>Director of Class I, Term Expires in 2010</u>
