REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and the Pension and Savings Plan Committee of the
Rayonier Inc. - Fernandina Mill Savings Plan for Hourly Employees
Jacksonville, Florida

We have audited the accompanying statements of net assets available for benefits of the Rayonier Inc. - Fernandina Mill Savings Plan for Hourly Employees (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following brief description of the Rayonier Inc. - Fernandina Mill Savings Plan for Hourly Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible hourly-paid bargaining unit employees of the Fernandina mill of Rayonier Inc. ("Sponsor" or the "Company"). Eligible employees may join the Plan on the first day of the month following 120 days of service without interruption or the date on which one year of eligibility service is completed, whichever is earlier. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Massachusetts Mutual Life Insurance Company ("MassMutual") serves as the custodian and record keeper of the Plan, and maintains and administers the Plan's investment assets for the benefit of participants. The trust forming part of the Plan (the "Trust") maintains the Plan's investment in Rayonier Inc. common stock. Effective June 3, 2011, Reliance Trust Company became the administrator of the Trust, replacing State Street Corporation.

Contributions

Participants may contribute from one percent to 16 percent of eligible compensation, in one percent increments. Contributions may be made on a before-tax basis, after-tax basis, or a combination thereof.

For each pay period, the Company makes a matching contribution equal to 50 percent of the first six percent of each participant's eligible compensation contributed to the Plan. The Company's total annual matching contribution was limited to \$1,000 and \$950 per participant for the years ended December 31, 2011 and 2010, respectively. Matching Company contributions are initially invested in the Rayonier Inc. Common Stock Fund. Participants can elect to transfer all or part of their total account balance into any available investment under the Plan at any time, but may be subject to trading restrictions.

The Company closed enrollment in its defined benefit pension plans to new employees hired or rehired after April 2006. Effective May 2006, employees hired or rehired after April 2006 are automatically enrolled in this Plan and receive bi-weekly enhanced contributions in accordance with the collective bargaining agreement.

Each year participants may contribute up to the maximum allowed by the Internal Revenue Code ("IRC"). In addition, the Plan allows for "catch-up" contributions by participants age 50 years and older as of the end of the Plan year. The Plan permits rollovers from other qualified plans into the Plan.

Participant Accounts

Each participant's account is credited with their contributions and the related Company contributions. Plan earnings and losses are allocated to participant accounts based upon account balances.

Vesting

Participants are immediately fully vested in their contributions plus actual earnings/losses thereon at all times. Participants vest in the Company contributions and enhanced retirement contributions at a rate of 20 percent per year of service; full vesting occurs after five years of service.

Forfeitures

Forfeited non-vested accounts may be used to reduce future employer contributions or to pay for administrative expenses related to the Plan. Total forfeitures were \$4,845 for the year ended December 31, 2011. During 2011, forfeitures of \$3,740 were utilized to reduce employer contributions. An insignificant amount of interest income is earned on the funds held in this account. At December 31, 2011 and 2010, the balance in forfeited, non-vested accounts totaled \$5,227 and \$3,397, respectively, and remains available in the Mass Mutual Fixed Income Fund ("MassMutual GIA").

NOTES TO FINANCIAL STATEMENTS

Transfers

The Company maintains several defined contribution plans for its employees depending upon their employment status. If a participant changes employment status and is eligible to transfer into a different plan during the year, the participant can elect to transfer his account balance into the corresponding plan. The transfer would be included in the "Transfers of assets from this plan" line on the Statement of Changes in Net Assets Available for Benefits.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan, as listed in the accompanying schedule of assets held at end of year.

Participants may elect to invest in the Rayonier Inc. Common Stock Fund but are prohibited from transferring into most investment options if they have transferred into and out of the same option within the previous 60 days. The MassMutual GIA is not subject to this rule nor does this rule prohibit participants from transferring out of any option at any time.

Notes Receivable from Participants

Effective October 2010, participant loans were made available. Participants may borrow a minimum of \$1,000 from their fund accounts. Loan amounts may not exceed the lesser of (a) 50 percent of the participant's vested balance or (b) \$50,000 reduced by the participant's highest outstanding loan balance, if any, during the prior one-year period. Loan terms range from one to five years or up to twenty years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime rate plus one percent. Principal and interest are paid ratably through bi-weekly payroll deductions. Loan transactions are treated as transfers between the investment funds and the loan fund.

Payment of Benefits and Withdrawals

Plan benefits are payable to participants either at the time of termination or retirement (including early retirement) in the case of becoming disabled, or to their beneficiaries in the event of death, and are based on the fully vested balance of their accounts. Alternatively, a participant may elect to defer distribution until April 1 of the year following the participant's attainment of age 70-1/2, provided the participant's vested account balance exceeds \$1,000. The participant may elect to receive one lump-sum payment or a series of benefit payments based on annual, semi-annual, quarterly or monthly installments, generally over a period not to exceed twenty years.

Withdrawals of any amount may be made from the participant's after-tax account balance in excess of a prescribed minimum. Withdrawals from before-tax account balances are allowable before attaining the age of 59-1/2 in the case of financial hardship. Existence of financial hardship is determined by Internal Revenue Service ("IRS") criteria.

2. Summary of Significant Accounting PoliciesBasis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting.

New or Recently Adopted Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2011-04 ("ASU 2011-04") which amends Accounting Standard Codification Topic 820, "Fair Value Measurements and Disclosures" to result in common fair value measurements and disclosures between accounting principles generally accepted in the United States of America and International Financial Reporting Standards. Certain amendments clarify the intent about the application of existing fair value measurement requirements, while certain other amendments change a principle or requirement for fair value measurement or disclosure. The new guidance requires prospective application and is effective for fiscal years beginning after December 15, 2011, which for the Plan will be the year ended December 31, 2012. The adoption of ASU 2011-04 is not expected to have a material impact on the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS

Use of Estimates

The preparation of the financial statements requires the use of certain estimates in determining the reported amount of assets and liabilities at the date of the financial statements and the reported amount of contributions, earnings, distributions and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 3 - *Fair Value Measurements* for additional information.

Fully benefit-responsive investment contracts, such as those held by the MassMutual GIA, are required to be reported at fair value pursuant to generally accepted accounting principles. However, contract value (generally equal to historical cost plus accrued interest) is the relevant measure for fully benefit-responsive investment contracts because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the accounting standard, all Plan investments are presented at fair value in the Statements of Net Assets Available for Benefits and an adjustment is made to revalue the fair value of the MassMutual GIA to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The guaranteed interest rate was 3.25 percent and 3.50 percent as of December 31, 2011 and 2010, respectively. The guaranteed interest rate is determined every six months.

The following table represents the annual interest credited to the account as a percentage of the average annual fair value of the MassMutual GIA:

Average yields	December 31,	
	2011	2010
Based on actual earnings	2.85%	3.25%
Based on interest rate credited to participants	2.85%	3.25%

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded on the accrual basis. See Note 3 - *Fair Value Measurements* for additional information.

Notes Receivable from Participants

Participant loans are recorded as "Notes receivable from participants" and measured at their unpaid principal balance plus any accrued but unpaid interest in the Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Sponsor. Fees charged by the individual funds and participant specific expenses are deducted from the participant's balance and reflected as a component of the net appreciation in fair value of investments.

NOTES TO FINANCIAL STATEMENTS

3. Fair Value Measurements

Financial assets and liabilities disclosed in the financial statements on a recurring basis are recorded at fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The guidance establishes a three-level hierarchy that prioritizes the inputs used to measure fair value as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value, as of December 31, 2011:

Asset Category	Level 1	Level 2	Level 3	Total
MassMutual GIA	\$ —	\$ —	\$ 5,015,039	\$ 5,015,039
Rayonier Inc. Common Stock Fund	2,683,912	—	—	2,683,912
Pooled Separate Investment Accounts				
Large Cap Equity	—	1,463,978	—	1,463,978
Asset Allocation/Retirement	—	459,572	—	459,572
Small Cap Equity	—	191,454	—	191,454
International Equity	—	69,850	—	69,850
Mid Cap Equity	—	51,924	—	51,924
Intermediate Term Bond	—	4,168	—	4,168
Investments at Fair Value	<u>\$ 2,683,912</u>	<u>\$ 2,240,946</u>	<u>\$ 5,015,039</u>	<u>\$ 9,939,897</u>

NOTES TO FINANCIAL STATEMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value, as of December 31, 2010:

Asset Category	Level 1	Level 2	Level 3	Total
MassMutual GIA	\$ —	\$ —	\$ 4,223,647	\$ 4,223,647
Rayonier Inc. Common Stock Fund	1,718,120	—	—	1,718,120
Pooled Separate Investment Accounts				
Large Cap Equity	—	1,635,450	—	1,635,450
Asset Allocation/Retirement	—	426,955	—	426,955
Small Cap Equity	—	184,607	—	184,607
International Equity	—	103,124	—	103,124
Mid Cap Equity	—	38,945	—	38,945
Intermediate Term Bond	—	4,250	—	4,250
Investments at Fair Value	<u>\$ 1,718,120</u>	<u>\$ 2,393,331</u>	<u>\$ 4,223,647</u>	<u>\$ 8,335,098</u>

The asset or liability's measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the year ended December 31, 2011.

Level 1 - *Rayonier Inc. Common Stock Fund* - fair value measured using the unit value calculated from the observable market price of the stock plus the cost of the short-term investment fund, which approximates fair value.

Level 2 - *MassMutual Pooled Separate Investment Accounts* - fair value measured using unit value calculated from the net assets of the underlying pool of securities.

Level 3 - *MassMutual GIA* - fair value measured using liquidation value based on an actuarial formula as defined under the terms of the contract.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in the fair value of the Plan's Level 3 assets during the year ended December 31, 2011 were as follows:

	Level 3 Assets
	MassMutual GIA
Balance, beginning of the year	\$ 4,223,647
Interest Income	154,621
Change in fair value of fully benefit-responsive investment contract	157,173
Purchases	817,134
Sales	(337,536)
Balance, end of year	<u>\$ 5,015,039</u>

NOTES TO FINANCIAL STATEMENTS

4. Investments

The investments that represented five percent or more of the Plan's Net Assets Available for Benefits as of December 31, were as follows:

	2011	2010
MassMutual GIA	\$ 5,015,039	\$ 4,223,647
Rayonier Inc. Common Stock Fund	2,683,912	1,718,120
American Growth America Fund	1,390,657	1,560,612

During 2011, the net appreciation in the fair value of investments held by the Plan (including gains and losses on investments bought, sold and held during the year) was as follows:

Rayonier Inc. Common Stock Fund	\$ 507,614
Pooled Separate Investment Accounts	(100,199)
Net Appreciation in Fair Value of Investments	<u>\$ 407,415</u>

5. Dividends

On July 22, 2011, Rayonier Inc.'s Board of Directors authorized a three-for-two stock split in the form of a stock dividend. The additional shares were distributed on August 24, 2011 to shareholders of record on August 10, 2011. On a post-split basis, the Plan received regular cash dividends of \$1.52 per share on Rayonier Inc. stock owned, totaling \$79,892 for the year ended December 31, 2011.

6. Party-in-Interest Transactions

Certain Plan investments are in Rayonier Inc. common stock. As Rayonier Inc. is the Sponsor, these transactions also qualify as party-in-interest transactions. At December 31, 2011 and 2010, the Plan held 56,405 and 45,129 shares of Rayonier Inc. common stock, respectively, which represented 0.05 percent and 0.04 percent, respectively, of the total shares outstanding. The impact of the stock split is reflected for both periods presented. In addition, the Plan Sponsor paid certain expenses totaling \$56,406.

Certain Plan investments are in holdings managed by MassMutual, the Plan's custodian and record keeper. Accordingly, these transactions also qualify as party-in-interest.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. Tax Status

In January 2011, the IRS informed the Plan Administrator by letter that the Plan is qualified under Section 401(a) of the IRC. Although the Plan has been amended since filing the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator

NOTES TO FINANCIAL STATEMENTS

believes it is no longer subject to income tax examinations for years prior to 2008.

9. Reconciliation of Financial Statements to Form 5500

The following table is a reconciliation of net assets available for benefits according to the financial statements as compared to Form 5500 as of December 31, 2011. No reconciliation is required for financial statements as of December 31, 2010, as the statements match Form 5500 for that period.

	2011
Net assets available for benefits per the financial statements	\$ 9,625,356
Less: Contributions receivable at December 31, 2011	(21,679)
Net assets available for benefits per Form 5500	\$ 9,603,677

The following table is a reconciliation of changes in net assets available for benefits according to the financial statements as compared to Form 5500 as of December 31, 2011.

	2011
Increase in net assets available for benefits before transfers per the financial statements	\$ 1,726,487
Change in contributions receivable	(2,427)
Net income per Form 5500	\$ 1,724,060
