

Q2 2016 Financial Supplement

Safe Harbor Statement

Forward-Looking Statements - Certain statements in this presentation regarding anticipated financial outcomes including Rayonier’s earnings guidance, if any, business and market conditions, outlook, expected dividend rate, Rayonier’s business strategies, including expected harvest schedules, timberland acquisitions, sales of non-strategic timberlands, the anticipated benefits of Rayonier’s business strategies, and other similar statements relating to Rayonier’s future events, developments or financial or operational performance or results, are “forward-looking statements” made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. These forward-looking statements are identified by the use of words such as “may,” “will,” “should,” “expect,” “estimate,” “believe,” “intend,” “project,” “anticipate” and other similar language. However, the absence of these or similar words or expressions does not mean that a statement is not forward-looking. While management believes that these forward-looking statements are reasonable when made, forward-looking statements are not guarantees of future performance or events and undue reliance should not be placed on these statements.

The following important factors, among others, could cause actual results or events to differ materially from those expressed in forward-looking statements that may have been made in this document: the cyclical and competitive nature of the industries in which we operate; fluctuations in demand for, or supply of, our forest products and real estate offerings; entry of new competitors into our markets; changes in global economic conditions and world events; fluctuations in demand for our products in Asia, and especially China; various lawsuits relating to matters arising out of our previously announced internal review and restatement of our consolidated financial statements; the uncertainties of potential impacts of climate-related initiatives; the cost and availability of third party logging and trucking services; the geographic concentration of a significant portion of our timberland; our ability to identify, finance and complete timberland acquisitions; changes in environmental laws and regulations regarding timber harvesting, delineation of wetlands, and endangered species, that may restrict or adversely impact our ability to conduct our business, or increase the cost of doing so; adverse weather conditions, natural disasters and other catastrophic events such as hurricanes, wind storms and wildfires, which can adversely affect our timberlands and the production, distribution and availability of our products; interest rate and currency movements; our capacity to incur additional debt; changes in tariffs, taxes or treaties relating to the import and export of our products or those of our competitors; changes in key management and personnel; our ability to meet all necessary legal requirements to continue to qualify as a real estate investment trust (“REIT”) and changes in tax laws that could adversely affect beneficial tax treatment; the cyclical nature of the real estate business generally; a delayed or weak recovery in the housing market; the lengthy, uncertain and costly process associated with the ownership, entitlement and development of real estate, especially in Florida, which also may be affected by changes in law, policy and political factors beyond our control; unexpected delays in the entry into or closing of real estate transactions; changes in environmental laws and regulations that may restrict or adversely impact our ability to sell or develop properties; the timing of construction and availability of public infrastructure; and the availability of financing for real estate development and mortgage loans.

For additional factors that could impact future results, please see Item 1A - Risk Factors in the Company’s most recent Annual Report on Form 10-K and similar discussion included in other reports that we subsequently file with the Securities and Exchange Commission (the “SEC”). Forward-looking statements are only as of the date they are made, and the Company undertakes no duty to update its forward-looking statements except as required by law. You are advised, however, to review any further disclosures we make on related subjects in our subsequent reports filed with the SEC.

Non-GAAP Financial Measures - To supplement Rayonier’s financial statements presented in accordance with generally accepted accounting principles in the United States (“GAAP”), Rayonier uses certain non-GAAP measures, including “cash available for distribution,” “pro forma sales”, “pro forma operating income,” “pro forma net income,” and “Adjusted EBITDA,” which are defined and further explained in this communication. Reconciliation of such measures to the nearest GAAP measures can also be found in this communication. Rayonier’s definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with GAAP.

2Q16 YTD Adjusted EBITDA	\$53.9	\$10.7	\$27.9	\$17.4	\$1.0	(\$10.3)	\$100.6

(1) Non-GAAP measures and pro forma items (see page 16 for definitions and pages 18 and 19 for reconciliations).

(2) Net of currency hedging impact.

(3) Includes \$101.3 million of operating income from a large disposition of timberlands and a \$4.0 million deferred payment with respect to a prior land sale.

(4) Includes \$101.3 million of operating income from a large disposition of timberlands in Q2 2016.

(5) Includes \$1.0 million of costs related to shareholder litigation in 2016, \$1.2 million gain from foreign currency derivatives in 2016 and \$1.2 million of transaction costs related to the Menasha acquisition in 2016 (see page 16 for definition).

Liquidity Measures — Cash Available for Distribution

(\$ in millions, except per share data)

	Six Months Ended June 30,	
	2016	2015
Cash Provided by Operating Activities	\$77.0	\$85.9
Working capital and other balance sheet changes	6.4	(6.9)
Capital expenditures ⁽¹⁾	(26.2)	(25.3)
Cash Available for Distribution ⁽²⁾	\$57.2	\$53.7
Net income	\$126.6	\$15.3
Interest, net and miscellaneous expense (income)	16.5	19.7
Income tax expense (benefit)	1.5	(0.7)
Depreciation, depletion and amortization	51.7	53.8
Non-cash cost of land and improved development	5.8	4.9
Costs related to shareholder litigation ⁽²⁾	1.0	1.6
Gain on foreign currency derivatives ⁽²⁾	(1.2)	—
Large dispositions ⁽²⁾	(101.3)	—
Adjusted EBITDA ⁽²⁾	\$100.6	\$94.6
Cash interest paid ⁽³⁾	(16.9)	(15.3)
Cash taxes paid	(0.3)	(0.3)
Capital expenditures ⁽¹⁾	(26.2)	(25.3)
Cash Available for Distribution ⁽²⁾	\$57.2	\$53.7
Cash Available for Distribution	57.2	53.7
Real estate development investments	(3.0)	(0.9)
Cash Available for Distribution after real estate development investments	\$54.2	\$52.8
Shares outstanding at period end	122,864,910	126,492,061
CAD per Share	\$0.47	\$0.43
Dividends per Share	\$0.50	\$0.50

(1) Capital expenditures exclude timberland acquisitions of \$276.6 million and \$88.4 million during the six months ended June 30, 2016 and June 30, 2015, respectively.

(2) Non-GAAP measure and pro forma item (see page 16 for definitions).

(3) Cash interest paid is presented net of patronage refunds received of \$0.4 million and \$1.3 million for the six months ended June 30, 2016 and June 30, 2015, respectively. 9

Section 2

Supplemental Information

Definitions of Non-GAAP Measures and Pro Forma Items

Pro Forma Sales is defined as revenue adjusted for large dispositions. Rayonier believes that this non-GAAP financial measure provides investors with useful information to evaluate our core business operations because it excludes specific items that are not indicative of ongoing operating results.

Pro Forma Operating Income is defined as operating income adjusted for costs related to shareholder litigation, the gain on foreign currency derivatives and large dispositions. Rayonier believes that this non-GAAP financial measure provides investors with useful information to evaluate our core business operations because it excludes specific items that are not indicative of ongoing operating results.

Pro Forma Net Income is defined as net income attributable to Rayonier Inc. adjusted for costs related to shareholder litigation, the gain on foreign currency derivatives and large dispositions. Rayonier believes that this non-GAAP financial measure provides investors with useful information to evaluate our core business operations because it excludes specific items that are not indicative of ongoing operating results.

Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, depletion, amortization, the non-cash cost of land and improved development, costs related to shareholder litigation, the gain on foreign currency derivatives and large dispositions. Adjusted EBITDA, is a non-GAAP measure that management uses to make strategic decisions about the business and allows investors to evaluate the core business performance related to the assets under management. It removes the impact of specific items that management believes does not directly reflect the core business operations on an ongoing basis.

Cash Available for Distribution (CAD) is defined as cash provided by operating activities adjusted for capital spending (excluding timberland acquisitions) and working capital and other balance sheet changes. CAD is a non-GAAP measure that management uses to measure cash generated during a period that is available for dividend distribution, repurchase of the Company's common shares, debt reduction and strategic acquisitions. CAD is not necessarily indicative of the CAD that may be generated in future periods.

Costs related to shareholder litigation is defined as expenses incurred as a result of the securities litigation, the shareholder derivative demands and the Securities and Exchange Commission investigation. See Note 10—*Contingencies* of Item 8 — Financial Statements and Supplementary Data in the Company's most recent Annual Report on Form 10-K.

Gain on foreign currency derivatives is the gain resulting from the foreign exchange derivatives the Company used to mitigate the risk of fluctuations in foreign exchange rates while awaiting the planned capital contribution to the New Zealand JV.

Large dispositions are defined as transactions involving the sale of timberland that exceed \$20 million in size and do not have any identified HBU premium relative to timberland value.
